

LEAP
PAEDIATRIC

COURSE IN DEVELOPMENT

Palliative Care Education

LEAP Paediatric features a combination of online learning with 8 hours, face-to-face discussions that provides learners with the essential skills and competencies of the palliative care approach.

This course takes an interprofessional approach and promotes teamwork and collaboration among different health care professionals who work in paediatrics, or who work with the paediatric population.

Who is it for?

LEAP Paediatric is ideal for any health care professional (e.g. physician, nurse, pharmacist, social worker etc.) working in paediatrics, or working with the paediatric population. It may also be of interest to palliative care professionals seeking more information on working with the paediatric population.

Course Features

- Online learning combined with 8 hours face-to-face learning with group discussion
- Interprofessional approach
- Course materials include a downloadable manual and the best-selling resource, the Pallium Palliative Pocketbook

Course Structure
