

Palliative Care Education

LEAP Renal is a one-day course that provides health care professionals with the essential skills and competencies of the palliative care approach. Course modules and case studies are contextualized to the renal care setting.

This course takes an interprofessional approach and promotes teamwork and collaboration among different health care professionals who work in a variety of settings and organizations.

Who is it for?

LEAP Renal is ideal for any health care professional (e.g. physicians, nurses, pharmacists, social workers, etc.) working with patients with advanced kidney disease.
