

Palliative Care Education

LEAP Liver is a one-day course that provides health care professionals with the essential skills and competencies of the palliative care approach. Course modules and case studies are contextualized to the liver care setting.

This course takes an interprofessional approach and promotes teamwork and collaboration among different health care professionals who work in a variety of settings and organizations.

Who is it for?

LEAP Liver is ideal for any health care professional (e.g. physician, nurse, pharmacist, social worker, etc.) working with patients with advanced liver diseases, such as liver failure and cirrhosis.

Course Features

- One day, 8 hours in total
- Face-to-face learning with group discussion and case studies
- Interprofessional approach
- Course materials include a downloadable manual and the best-selling resource, the Pallium Palliative Pocketbook

Course Structure

- ◆ Being Aware
- ◆ Taking Ownership
- ◆ Decision Making and Transitions
- ◆ Advance Care Planning
- ◆ Decompensated Liver Disease
- ◆ Pain and Symptoms Part A
- ◆ Pain and Symptoms Part B
- ◆ Psychosocial and Spiritual Care
- ◆ Last Days and Hours
- ◆ Quality Improvement

LEAP Liver is under development and may undergo changes as it is finalized.
