

Covid-19 Caregiver-Centered Care Education

We are inviting you to participate in the
Caregiver-Centered Care Education.

Free online: caregivercare.ca/covideducation

SUPPORTING FAMILY

CAREGIVERS IN STRESSFUL SITUATIONS

- The COVID-19 pandemic has increased family caregivers care work and stress.
- Health workforce can be the first line of reliable support for family caregivers; however, many health providers have not received any education or training about supporting family caregivers in the COVID-19 pandemic

Free & High-Quality Learning

- Competency-based

"I am very impressed. I could easily see myself in the videos and audio recorded situations"

Continuing Competence Certificate

**UNIVERSITY
OF ALBERTA**

KEY FACTS

Duration: 45 minutes

Modules: 3

Prerequisites: None

For all health providers
